## Product Specifications

2 Conductors	18 AWG (1.02mm) Solid Bare Copper Parallel / Twisted
Jacket: White	Flexible PVC Flame Retardant Type CM
Temp Rating	-20°C to 60°C
Operating Voltage	150V
Certifications	Conforms to UL STD 444   CSA Certified
Applications	Used for power limited circuits such as thermostat, air conditioning and heating controls, heat pumps, bell and alarm systems, intercom systems, doorbells, remote control units where maximum voltage does not exceed 30 volts.
